

MIXPAC™

A Sulzer Brand

Siko BV is official distributor for the world leading trademark Sulzer Mixpac Ltd. Manufacturer and supplier for compatible one and two-component mixing systems including cartridges, mixers, dispensers and accessories

2K-Dispensers – MIXPAC™ DM2X 200/400 Manual Tools

Key features of the DM2X at glance

Interchangeable cartridge trays for quick exchange and use with other cartridge ratios

- Conversion kits allow 1:1, 2:1, 4:1 and 10:1 cartridges to be used in the same MIXPAC™ DM2X dispenser instead of using four separate dispensers; universal trays will also fit the pneumatic MIXAC™ DP2X tool.

Ratio selector switch for activating an innovative dual drive system

- Synchronized movement of plunger rods enables superior metering results for all ratios. Now also available for 200 mL range.

Modern & functional design

- The handle has an optimized, ergonomic design and provides enhanced comfort and control. The brake release button is conveniently positioned behind the handle to make it easily accessible and allow one hand usage
